RE: UPDATED and REVISED - Freedom of Information Act Request–neonicotinoid pesticides, information responsive or related to 7/22/13 and 8/15/2013 EPA letters to registrants

To EPA's FOIA Officer:

The Center for Food Safety (CFS) is a 501(c)(3) nonprofit organization that addresses the impacts of our current industrial food production system on human health, animal welfare, and the environment. Consistent with this mission and pursuant to 7 C.F.R. § 370.1 and the Freedom of Information Act, 5 U.S.C. § 552, I, Peter Jenkins, on behalf of CFS, respectfully request the following information, which is believed to likely be within the **Office of Pesticide Programs**:

- 1) All information submitted to EPA to date in response to, or otherwise related to, the July 22, 2013, and the August 15, 2013 letters to “Registrants of Nitroguanidine Neonicotinoid Products” sent by Steven Bradbury, Director, Office of Pesticide Programs.¹**
- 2) Specifically, I request copies of all of these categories of information,**

¹ Note: The July 22 letter has this subject line: “Registered Products Containing Imidacloprid, Dinotefuran, Clothianidin or Thiamethoxam”; the Aug. 15 letter has this subject line: “Pollinator Protection Labeling for Nitroguanidine Neonicotinoid Products”. Note also that EPA's Aug. 15 announcement regarding these letters is online here:

<http://yosemite.epa.gov/opa/admpress.nsf/d0cf6618525a9efb85257359003fb69d/c186766df22b37d485257bc8005b0e64!OpenDocument> and links to the letters are here:
<http://www.epa.gov/pesticides/ecosystem/pollinator/risk-mgmt.html>.

A) the full text and visual content of all the registrant companies' new label statements that they agree to put on each product (per 7/22/13 EPA letter, due in "early August" 2013).

B) all of the registrant companies' statements regarding their production cycles for new products and timeframes for next product label printing (per 7/22/13 EPA letter, due by 7 business days from receipt).

- 3) Any other emails, memoranda, lab results, reports, letters, risk analysis, scientific data, summaries, studies, plans, product and any other documentation in any form whatsoever that is responsive to or related to the July 22, 2013 and the August 15, 2013 letters to "Registrants of Nitroguanidine Neonicotinoid Products" sent by Steven Bradbury, Director, Office of Pesticide Programs, letter including, but not limited to, EPA's internal discussions, preparations or deliberations regarding those two letters.**

Note: this information also was requested in an Aug. 23, 2013, Center for Food Safety Freedom of Information Act Request by Larissa Walker, (your reference number HQ-2013-009359). This updated and revised request seeks all information that was not provided in response to the Aug. 23 request. EPA's response to date is not current and lacks responsiveness on each of the categories of documents, above.

CFS requests this information in light of the President's "Memorandum for the Heads of Executive Departments and Agencies" dated January 21, 2009, which states:

The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails...In responding to requests under the FOIA, executive branch agencies (agencies) should act promptly and in a spirit of cooperation, recognizing that such agencies are servants of the public. All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA. The presumption of disclosure also means that agencies should take affirmative steps to make information public.

Exec. Memorandum for the Heads of Executive Departments and Agencies, 74 Fed. Reg. 4,683 (Jan. 21, 2009). This request is being sent to the EPA FOIA officer with the understanding that it will be forwarded to other officers, offices, or departments with information pertinent to this request.

EXPEDITED PROCESSING IS NECESSARY

CFS, as an organization whose primary goal is dissemination of information and advocacy on behalf of the public (see below), has an urgent need to inform the public about government activity concerning information on the impact of pesticides and Colony Collapse Disorder in bees on organic farming, as well as on agriculture more generally.

REQUEST FOR FEE-WAIVER

CFS requests that pursuant to 5 U.S.C. § 552(a)(4)(A)(iii), EPA waive all fees in connection with the procurement of this information. As demonstrated below, the nature of this request meets the test for fee waiver as expressed in the Freedom of Information Act, 5 U.S.C. § 552(a)(4)(A)(iii).

In deciding whether the fee waiver criteria is satisfied, CFS respectfully reminds EPA that FOIA is inclined toward disclosure and that the fee waiver amendments were enacted to allow further disclosure to nonprofit, public interest organizations. *See* 132 Cong. Rec. S. 14270-01, (statement of Sen. Leahy) (“[A]gencies should not be allowed to use fees as an offensive weapon against requesters seeking access to Government information.”) Furthermore, the Ninth Circuit Court of Appeals has interpreted this fee waiver section broadly, holding that the section “is to be liberally construed in favor of waivers for noncommercial requesters.” McClellan Ecological Seepage Situation v. Carlucci, 835 F.2d 1282, 1284 (9th Cir. 1987) (citing Sen. Leahy).

I. The present disclosure is in the public interest because it will significantly contribute to public understanding of the operations or activities of government.

The requested disclosure will contribute to public understanding of the operations or activities of the government. 5 U.S.C. § 552(a)(4)(A)(iii).

A. The subject of the disclosure concerns “the operations and activities of the government.”

EPA is, *inter alia*, responsible for regulating U.S. pesticide safety. Over the last approximately 13 years EPA has approved dozens of use of neonicotinoid insecticides

B. The disclosure is “likely to contribute significantly to public understanding” of government operations or activities.

CFS is a non-profit organization that informs, educates and counsels the public —via legal action, our website, our True Food Network, books and reports, and our quarterly

newsletter, *Food Safety Now!*— on the harm done to human health, plant and animal welfare, and the environment by pesticides and industrial agriculture generally. Accordingly, CFS is an effective vehicle to disseminate information on the impact of pesticides and Colony Collapse Disorder in bees on organic farming, as well as on agriculture more generally.

Simultaneously, this FOIA will help CFS fulfill its well established function of public oversight of government action. Public oversight of agency action in particular is a vital component in our democratic system and is the bedrock upon which the FOIA stands.

II. Obtaining the information is of no commercial interest to the Center.

The Center for Food Safety is a 501(c)(3) non-profit environmental advocacy organization that works to address the impacts of our food production system on human health, animal welfare and the environment. CFS works to achieve its goals through grassroots campaigns, public education, media outreach, and litigation. Under FOIA, a commercial interest is one that furthers a commercial, trade, or profit interest as those terms are commonly understood. See e.g., OMB Fee Guidelines, 52 Fed. Reg. 10017-18. Such interests are not present in this request. In no manner does CFS seek information from the EPA for commercial gain or interest. CFS respectfully files this FOIA request pursuant to its goal of educating the general public on the adverse effects of pesticides and industrial agriculture. Upon request and free of charge, CFS will provide members of the public with relevant information obtained from EPA.

Based upon the foregoing, the CFS requests that this FOIA be classified within the EPA fee waiver category and that EPA send the requested information as required by law. If any exemption from FOIA's disclosure requirement is claimed, please describe in writing the general nature of the document and the particular legal basis upon which the exemption is claimed. Should any document be redacted, please indicate the location of the redaction through the use of black ink. Please provide any and all non-exempt portions of any document which may be partially exempt due to some privilege as required under *Vaughn v. Rosen*, 484 F.2d 820 (D.C. Cir. 1973).

Please send all materials to the Washington, D.C. address on the letterhead. Call me at (202) 547-9359 if you have any further questions about this request. Thank you for your attention to this request.

Sincerely,

/s/

Peter T. Jenkins
